

THE TRADE REVIEW BY DUN & COMPANY

ENORMOUS IMPROVEMENT IN BUSINESS NOTED.

The Country in a Fair Way to Enjoy Prosperity—Foreign Demand For American Wheat is an Important Factor in Trade—The Failures of the Week.

New York, Nov. 14.—R. G. Dun & Co.'s Weekly Review of Trade says:

"No doubt the brighter day is dawning. Dispatches telling of about 500 establishments, which have been opened, to have materially enlarged their force, give only part of the facts, for throughout the country the gain has been surprising, even to the most hopeful.

"The foreign need of American wheat continues an important factor, and the price has advanced to 88 cents, gaining 6 cents for one week, 10 cents for two weeks, and 24 cents since early in September. The price is the highest since June, 1892. Western receipts were only 4,494,033 bushels, against 8,262,864 last year, but the election cut off much work during the days in which these receipts were started to market. Atlantic exports, in spite of scanty freight room, were for two weeks 2,717,231 bushels, flour included, against 3,260,384 last year, and Pacific shipments are also heavy to India, South Africa and Australia.

"Many textile works have been starting or increasing their forces, mostly on orders booked weeks ago. But there has not been much gain in the demand as yet. After purchases of 46,000,000 pounds of wool in five weeks, transactions fell to 6,243,700 pounds last week, but prices were strong, and in some grades 1 cent higher, and even a greater advance is demanded at the west, while foreign markets are higher, and Australian fully 1 cent per pound. The cotton goods market is not yet active, but more liberal estimates of the cotton crop are generally credited, causing an eighth decline to 8 cents.

"The output of iron furnaces in blast Nov. 1 was 124,077 tons weekly, having been increased 11,295 tons, or 106 per cent in the last part of October, by confidence in the future. All the markets were stronger, although the enormous purchases of pig iron in advance of needs caused comparative inactivity at present. The billet pool is in protracted meeting here this week to decide upon its course, and is still undersold. The beam, bar, and wire-nail associations meet this week, and the underselling of wire nails by outsiders has gone so far that a decline of 45 cents is openly quoted. The coke combination, it now appears, has not prevented large contracts for future delivery at less than \$2, its fixed price, and even less than \$1.75, but the output last week decreased. A heavy sale of copper to foreigners, said to cover 10,000,000 pounds, has raised the price to 11½ cents, and tin actually sells at 13 cents, though less is quoted.

"Failures for the week have been 276 in the United States, against 283 last year, and forty-six in Canada, against forty-nine last year."

WILL TAKE THE GOLD.

Assistant Secretary Curtis Reports an Arrangement Being Perfected.

Washington, Nov. 14.—Assistant Secretary Curtis has returned from a short visit to New York, where he went to consult with the assistant treasurer on matters connected with the large offerings of gold now being made.

Mr. Curtis stated that arrangements had been perfected by which all offers of gold, except possibly small amounts by individuals, would be promptly received and currency returned. In the cases of individual offers of small amounts over the counters there probably would be some delay, as they would necessitate immediate counting and settlements.

Mr. Curtis said the indications were that the present inflow of gold into the treasury would continue until the surplus holdings of banks and of individuals who had accumulated comparatively small sums in anticipation of gold going to a premium, had been disposed of.

Conference of Gold Democrats.

Chicago, Nov. 14.—Leaders of the gold democracy of Illinois met at 11 o'clock to-day at the Palmer house. Candidates upon the state ticket, members of the state central committee and strong men among the democrats opposed to the Chicago platform will confer. The meeting will decide the attitude of the Palmer and Buckner men toward the free silver wing of the party; the future policy of the gold standard democrats in Illinois; the name of a state chairman to succeed the late Charles A. Ewing of Decatur, and a number of minor questions.

Battleship Iowa's Speed.

Philadelphia, Pa., Nov. 14.—The battleship Iowa made 16.27 knots an hour on her builders' trial trip Friday. Her guaranteed speed was 16 knots an hour for four hours, and her builders received \$50,000 for each quarter knot in excess of 16 knots on her official trial trip, which is yet to be made.

Snowstorm in East Tennessee.

Knoxville, Tenn., Nov. 14.—A heavy blizzard has been raging in upper east Tennessee. There are fourteen inches of snow on Roane mountain.

CLAIMS FOR DAMAGES.

Spanish Government Will Also Demand Money.

Washington, Nov. 14.—An interesting phase of the Cuban matter is the claims made by both governments. Hardly a week passes that the state department does not receive from American property-owners in Cuba claims for property destroyed or injured. These claims have been forwarded to Madrid when it has appeared that there was a basis for them, and already those adjudged in Washington as meritorious aggregate a sum well into the millions.

To offset these claims it is now learned that Spain is treasuring up numerous claims against this government, and it is estimated by one state department official that the Spanish demand will also foot up into the millions. It is based on the filibustering expeditions which have gone from our shores and which have sustained the Cuban revolutionists in their struggle against the home government. It is understood that the Spanish claim is based on no less a precedent than the Alabama incident and the Geneva award, and that the Spanish authorities, from all accounts, expect to be successful.

Postmasters to Be Elected.

Indianapolis, Ind., Nov. 14.—The Indiana republican congressmen-elect have decided to refer all applications for postoffice appointments to the patrons of the postoffices, and elections will be held in every city and town of the state after March 4. The congressmen-elect have hit upon this plan to avoid the responsibility of making appointments themselves and will recommend no one who has not received a majority of the votes of the republican patrons of the office to which he aspires. The republican senator to be elected by the coming legislature will dispense the patronage in the four districts which will be represented by democrats.

Hanna Has Glory Enough.

Cleveland, Ohio, Nov. 14.—"I have had all the glory I want out of this campaign, and I am satisfied," said M. A. Hanna Friday while he was busily engaged in going through an enormous accumulation of correspondence. Concerning the national republican headquarters, Mr. Hanna said: "The Chicago headquarters will be closed early next week. The New York headquarters will probably be kept open until we decide about the permanent national headquarters."

Rumor About Gibbons Set at Rest.

Baltimore, Md., Nov. 14.—Archbishop Martinelli, the apostolic delegate, will visit Cardinal Gibbons in a few days. Archbishop Martinelli has announced his intention to celebrate the high pontifical mass upon that occasion and will be the guest of the cardinal. Those who are well posted in church matters say that this would not happen if the cardinal did not stand in high favor at the vatican.

Cleveland Discusses Cuba.

Washington, Nov. 14.—To a senator who called upon him to inquire about the war rumors in regard to Cuba President Cleveland replied that the position of this government was as stated in his last annual message to congress—one of traditional sympathy with a people struggling for autonomy and freedom—but, nevertheless, this government felt its plain duty honestly to fulfill every international obligation.

Woman Commits Murder and Suicide.

Elsberry, Mo., Nov. 14.—Friday afternoon, without any warning, Mrs. Abner Cox shot her husband twice with a pistol, inflicting mortal wounds. She then committed suicide. Her friends claim that she has been partially demented ever since her marriage, over seven years ago, in violent opposition to her parents' wishes.

Money for Missions in Japan.

Detroit, Mich., Nov. 14.—At Friday's session of the Methodist Episcopal general missionary committee, \$48,576 was appropriated for missions in Japan. Philadelphia was selected as the next place of meeting.

Wyoming Still in Doubt.

Cheyenne, Wyo., Nov. 14.—The result of the election in Wyoming is still in doubt and depends upon the vote of Big Horn county, from which the returns of twenty precincts, casting between 600 and 800 votes, are yet to be received. The unofficial returns in the state, outside of these precincts, show a Bryan majority of 280.

Tear Down the American Flag.

Kewanee, Ill., Nov. 14.—At Atkinson a United States flag which had been hoisted by prohibitionists during the campaign and had since remained unmolested was torn down by a crowd of the foreign element who had been drinking heavily. A committee has been appointed by a mass meeting of citizens to prosecute the offenders.

Wages to Be Restored.

Wilkesbarre, Pa., Nov. 14.—Notices have been posted at the Wilkesbarre silk mill that the 15 per cent reduction in wages made last August will be restored on Nov. 15. Four hundred hands are affected.

Smith and Goddard Matched.

Johannesburg, South Africa, Nov. 14.—Denver Smith has been matched to fight Goddard in April.

W.C.T.U. IN SESSION AT SAINT LOUIS

FRIENDS OF TEMPERANCE MEET AT THAT CITY.

Twenty-Third Annual Convention of the Organization Opened Yesterday—Large Number of Delegates Present—Harj Times Were Felt—To Hold Three Sessions a Day.

St. Louis, Mo., Nov. 14.—The twenty-third annual convention of the National Woman's Christian Temperance union opened in Music hall Friday, with a greater attendance than any one previously held. At least 500 accredited delegates were present and as many more visitors from every portion of the country.

Prior to the formal inauguration of exercises there was a prayer-meeting in the Schuyler Memorial hall, the spir-

MISS FRANCES E. WILLARD.

tual feast being conducted by the national evangelists, headed by Mrs. Elizabeth W. Greenwood of Brooklyn. After these services Music Hall filled up rapidly. It was elaborately decorated with national colors and appropriate mottoes, while the locations of the state delegations were designated by standards. Miss Frances Willard received an ovation upon making her appearance on the platform.

The convention was called to order shortly after 9 o'clock. Preliminary business was disposed of quickly and then Miss Willard arose to deliver her annual address, and was given an ovation.

The report of the executive committee was then made. It was, in effect, a report of what had been done at the meeting of the committee yesterday, and related to the work of the convention and the national union. It was decided to make March 20, the birthday of Gen. Neal Dow, a prohibition rally day.

The report of the treasurer, Helen M. Barker of Illinois, stated that the receipts, notwithstanding the hard times, had been larger than for several previous years. While many states had made a gain in membership, only seven had added over 500 and would share in "benefit right." These were Massachusetts, Maryland, New Jersey, Louisiana, Michigan, Virginia and Kentucky. The total receipts were \$27,708 and the expenditures \$24,115, leaving a balance of \$3,592.

The report of the corresponding secretary, Mrs. Catherine Lent Stevenson of Massachusetts, showed that during the year 1,175 new unions had been organized, the gain in membership being 15,888. The gain, however, had been offset by a corresponding loss.

Mary F. Lovell of Pennsylvania, superintendent of the department of mercy, reported that 10,542 children were enrolled in the band of mercy.

"The crime with which the world is cursed," she said, "are crimes of cruelty. Eliminate that hideous element and the worst crimes would cease to exist. We cannot regenerate many, but we can do a great deal of preventive work. We can reach the rising generation and we can educate ourselves."

Three sessions a day for five days will be held during the convention.

FREETHINKERS MEET.

Delegates from the United States and Europe at Chicago.

Chicago, Nov. 14.—Freethinkers from all over the United States and from England were present at Washington hall, 70 Adams street, Friday, at the annual congress of the American Secular Union and Free Thought Federation.

The assembly was especially honored by the presence of George W. Foote, editor of the London Freethinker, president of the British Secular Society, and successor of Charles Bradlaugh, and also of Charles Watts, vice-president of the society.

The opening session commenced shortly after 10 o'clock. President Putnam made the first address.

Luther League to Meet.

Chicago, Nov. 14.—Tuesday next the Luther league of America begins its annual meeting in Chicago. The arrangements committee, headed by S. H. Holstad, has been hard at work, and has arranged every detail from programme to entertainment of delegates.

Robbins Wants to Be Senator.

Quincy, Ill., Nov. 14.—Dr. Joseph Robbins' friends are booming him for the United States senate. The doctor was a candidate for nomination for governor and was defeated by John R. Tanner.

GERMANY PROTESTS AGAINST THE DEAL

VENEZUELAN AGREEMENT BITTERLY CRITICISED.

Emperor's Official Organ Says Germany Will Not Tolerate United States Intervention—Great Britain Blamed For Her Course in Settling Matters With Uncle Sam

London, Nov. 14.—The Berlin correspondent of the Times telegraphs to his paper as follows:

"The Venezuelan settlement has apparently caused misgiving in Germany. The views of the foreign office seem to find expression in an article from the Kolnische Zeitung, which is reproduced with approval by the Norddeutsche Allgemeine Zeitung (the official organ). This article asserts that Great Britain first allowed herself to be bullied by the Americans into consenting to the Venezuelan commission and has now accepted the Monroe doctrine. Therefore, the American newspapers are not entirely wrong in speaking of Great Britain's submission.

"We wish to take the first opportunity to declare," adds this officially approved article, "that the precedent is only British and in no way European. Germany, at least, will never tolerate the intervention of a foreign state in the protection of German interests in South and Central America."

AGREEMENT SUMMARIZED.

London Chronicle Prints Terms of Venezuelan Settlement.

London, Nov. 14.—The Chronicle publishes a summary of the agreement of the settlement of the Venezuelan boundary dispute between the United States and Great Britain, adding merely: "This momentous news reaches us too late for editorial comment." The agreement is dated Nov. 12 and is signed by Mr. Olney and Sir Julian Pauncefote.

The agreement will be the basis of a treaty to be concluded between Great Britain and Venezuela. In fact, it will be a treaty in itself, only requiring clauses to be added relating to the procedure, the compensation of members of the tribunal, and other minor routine matters.

The Chronicle has a dispatch from Washington which says that Mr. Olney has urged Senor Andrade, the Venezuelan minister there, to go to Caracas to get President Crespo and the Venezuelan congress to accept the agreement. This dispatch also says that Mr. Olney advised the resumption of diplomatic relations with Great Britain by Venezuela.

Alton Road Shortens Hours.

Bloomington, Ill., Nov. 14.—The Chicago & Alton managers have announced a reduction of hours of labor in their general shops in Bloomington from eight to seven each day, going into effect at once. It was also announced that the shops would be closed from the 25th inst. to Dec. 1, and that, during the month of December, the 1,000 men employed will be given thirty-two hours work per week. General Superintendent Gray said the action of the company is caused by the decrease of freight and passenger traffic. The Alton employed their shopmen ten hours a day all through last summer, while the Wabash and other roads were running short time or had closed their shops.

Wants Leedy to Alay Fears.

Topeka, Kan., Nov. 14.—In Gov. Leedy's mail Friday was a letter from a railroad solicitor of Kansas, imploring him to come out in a newspaper statement, pledging the people of the state and of the country at large that he would not permit any bill to become a law that would in any way impair the rights of creditors. The writer of the letter begged Leedy to set the fears of moneyed men of the country at rest.

Joseph B. McCullach Improves.

St. Louis, Mo., Nov. 14.—The report sent abroad from this city that Joseph B. McCullach, editor of the St. Louis Globe-Democrat, is at death's door is without foundation. Four weeks ago Mr. McCullach caught a slight cold, and asthma resulted, which has confined him to his room ever since, but his condition has at no time been considered serious. He is able to be up every day, and attends to the editorial management of the paper.

Missouri Gold Men Meet.

St. Louis, Mo., Nov. 14.—Forty state committeemen of the national democratic (gold standard) party of Missouri met here Friday, with Chairman Cunningham presiding. Thomas B. Buckner of Kansas City outlined the object of the meeting as follows: "We propose to keep our organization. We will never affiliate with the democrats who went astray until they return to democratic principles."

Steamer Acadia Ashore.

Sault Ste. Marie, Mich., Nov. 14.—The Canadian steamer Acadia, for whose safety serious apprehensions have been felt for several days, lies ashore on the rocks near Michipicoten river, and will be undoubtedly a total loss. The master of the steamer, Captain Clifford, with four of the crew, reached port in a sailboat belonging to the lighthouse department. The rest of the crew are still on the rocks.

SILVER PARTY STILL LIVES.

Will Maintain Headquarters at Washington and Chicago.

Washington, Nov. 14.—Secretary Diffenderfer said to-day: "The national silver party will maintain permanent headquarters at Washington, with a branch in Chicago. All of the 5,000 silver clubs belonging to the silver party are requested to maintain their organization. The silver party platform is simple—the single money plank—and it will more readily unite all of the friends of bimetalism than will any other party. During the campaign of 1896 we sent out 10,000,000 pieces of literature and organized 5,000 clubs. Our future work will consist in organizing clubs and educating the people."

"What, in your judgment, will be the policy of the silver representatives in the present and subsequent congresses regarding tariff legislation?"

"I am unable to say how individual members will stand upon that question, but from interviews I have had and communications received I am inclined to think that many favor noninterference with any tariff measure that may be proposed by the republicans and gold democrats. We, as silver advocates, know in advance that a tariff without a marked change in our currency legislation will not furnish relief to our industries. One thing I can assure you of, and that is no compromise on silver will be permitted under any circumstances."

EVIDENCE AGAINST IVORY.

Second Le Caron Makes His Appearance in Court.

London, Nov. 14.—During the examination Friday at the Bow street police court of Edward J. Ivory, alias Edward Bell, the Irish-American saloonkeeper of New York and alleged dynamiter, there was an exciting feature for the first time in the long and dreary proceedings against the prisoner. A witness who gave his name as "Jones" was examined. When this man appeared in the box Ivory's face paled and he showed consternation. "Jones," it is understood, has for years been identified with the Clan-na-gael and other Irish-American organizations. He is believed to have been a spy in the pay of the British government.

The cross-examination of Jones brought out important points against the prisoner, but counsel for Ivory submitted that it was not a case to go to trial. The magistrate, however, emphatically declared there "were ample grounds" to send the case to trial, and Ivory was formally committed. The Globe says of the testimony of "Jones" that the most sensational developments are expected, eclipsing those of the time of LeCaron.

Agree to Arbitration.

Washington, Nov. 14.—Another long-standing American boundary dispute is to be settled by arbitration. Costa Rica and Colombia have agreed to leave their territorial division line to the adjudication of the president of France, or, in the event that he cannot undertake the responsibility, President Diaz of Mexico, or the president of Switzerland will be selected.

Delaware Question Settled.

Wilmington, Del., Nov. 14.—Gov. Watson has issued a proclamation declaring that all of the votes cast for James G. Shaw and James G. Shaw, Sr., for presidential elector, shall count for James G. Shaw, as his name was on the several ballots in two ways. This will send three McKinley electors from Delaware to the electoral college.

Result of the Kentucky Count.

Frankfort, Ky., Nov. 14.—The official counting of the vote shows that Cash, the first elector on the ticket for McKinley and Hobart, has 218,054. Smith, the highest of the Bryan and Sewall electors, has 217,796. Smith defeats the lowest McKinley elector, McKinley's plurality is 258, taking the two highest votes.

Greet the President-Elect.

Canton, Ohio, Nov. 14.—The stream of callers on Major McKinley continued all day Friday. Most distinguished among them were Bishop Earl Crampton of the Methodist Episcopal church, Portland, Ore., Horace C. Plumley of North Dakota and Captain F. A. Kendall, U. S. A., were among the callers.

Taylor a Candidate for Senator.

Ligonier, Ind., Nov. 14.—The announcement is made that Robert S. Taylor of Allen county is a candidate for the United States senate, to succeed Daniel Voorhees. Mr. Taylor has the support of the press of northern Indiana.

Allerton's Cabinet Boom.

Louisville, Ky., Nov. 14.—At a meeting of the Louisville Live Stock Exchange a resolution was adopted recommending the appointment of Samuel W. Allerton of Chicago as secretary of agriculture in McKinley's cabinet.

Gov. Atkinson Out of the Race.

Atlanta, Ga., Nov. 14.—Governor Atkinson has announced his retirement from the senatorial race. This leaves the contest between Clay and Howell, unless a dark horse is introduced, which is unlikely.

Hitt Would Like to Be Senator.

Galena, Ill., Nov. 14.—The Galena Gazette publishes an interview with Congressman Hitt, in which he authorizes the use of his name as a candidate for the United States senate.

DEDICATE A CHURCH AT THE LINE CITY

SERVICES WILL BE HELD TO-MORROW.

Rev. W. H. Dahl, of Stoughton, Vice President of the United Norwegian Lutheran Church of America to Conduct Them—Saw Mills Shut Down—Other State Specials.

Beloit, Nov. 14.—[Special]—Rev. T. H. Dahl, of Stoughton, vice president of the United Norwegian Lutheran church of America, will officiate at the dedicatory services of the Bethlehem Lutheran church in this city Sunday morning, and will be assisted by a number of other pastors. Rev. Eggar, of Madison, will conduct services in the afternoon for young people, and Rev. Kroster of Utica, Wis., will deliver an address in English at the same time. Prof. E. G. Eund, of Minneapolis, will preach in the evening.

Saw Mill's Shut Down.

Marinette, Wis., Nov. 14.—The lumber season in the twin cities of Marinette and Menominee has ended. The total cut of Marinette and Menominee mills this year is about equal to that of last year. The cut of timber in the woods the coming winter will be close to 300,000,000 feet, and so next year's lumber cut will be smaller than this. This is an indication of the gradual decline of the great lumber industry of the Northwest. The total cut of the Marinette mills is 178,500,000 feet, and that of the Menominee mills 204,000,000 feet. The grand total cut on the Menominee river is 382,500,000 feet.

Makes Further Confession.

Galesville, Wis., Nov. 14.—George Palmer, the murderer of little Hazel Marshall, has made further confessions of his crime. He says that after killing the girl he attempted to kill the mother, who was alone in the house. Meeting her at the door, his courage failed him. After doing this he intended to go to the nearest village to purchase ammunition with which to load a shotgun and kill the father when he came home at night.

Williamson Beats Merrill.

Milwaukee, Wis., Nov. 14.—Dr. J. L. Williamson won the live bird championship of Wisconsin and the E. C. Powder company's silver cup by defeating Richard Merrill by a score of 91 to 88. The match was at 100 live birds each. Dr. Merrill has decided to challenge Dr. Williamson to another match, which, the doctor said, would take place in about two weeks.

Sawyer Not a Candidate.

Milwaukee, Wis., Nov. 14.—Ex-Senator Sawyer of Oshkosh does not desire to return to the senate, but favors the election of his former colleague, John C. Spooner. Mr. Sawyer said Colonel Spooner would be elected without opposition from the republicans and that the newly elected members were so unanimous for him that it would not be necessary to hold a caucus.

WAR SCARE GROUNDLESS.

Bears Take Advantage of a Rumor to Hammer the Price of Stocks.

New York, Nov. 14.—The Spanish war scare has exploded. It was reported that the war department had made inquiries among the trunk lines with gulf connections regarding their capacity to move troops, supplies and war material to Gulf of Mexico ports. The bears attacked the market vigorously and a number of speculators were frightened sufficiently to let go of their holdings. Denials of the report came from all quarters and stopped the decline in prices.

Various explanations were also vouchsafed to rob any such inquiry of a warlike character. It was stated that the government makes such inquiries annually and also that it has reference to the exchange of troops between southern and western military stations. One feature of great importance to the speculative position was the appearance of London as a heavy buyer of stocks for the first time since election.

Receiver for Vandalla Lines.

Indianapolis, Ind., Nov. 14.—Judge Woods of the United States district court heard argument Friday in the case of Mark T. Cox, James A. Blair and James W. Paul, Jr., vs. the Terre Haute and Indianapolis railway. The court appointed Volney T. Mallott of Indianapolis receiver for the following branches of the Vandalla lines, with a bond of \$50,000: Terre Haute and Indianapolis, Terre Haute and Vandalla lines, with a bond of \$50,000; Terre Haute and Logansport, St. Louis, Vandalla and Terre Haute.

Charities and Corrections Body.

Springfield, Ill., Nov. 14.—The Illinois state conference of charities and corrections was permanently organized Friday by the election of the following officers: Rev. Jenkin Lloyd Jones of Chicago, president; Fay Sims of Rock Island, vice-president; Mrs. John Lutz of Lincoln, secretary. These officers, with the secretary of the state board of commissioners of public charities, are to constitute the executive committee.

Will Pipe Oil from Indiana.

Chicago, Nov. 14.—It is learned on reliable authority that the Chicago Oil Pipe Line company will be ready to take oil from the Indiana fields early in December.

REST DAY SESSION IS ENDED.

Meeting Closed With Rev. W. F. Crafts' Address Last Night.

WITH the address of Rev. Wilbur F. Crafts on "Patriotic and Humanitarian Objections to Sunday Work and Dissipation," the annual meeting of the Wisconsin Sunday Rest Day Association came to an end at the Y. M. C. A. building last evening. In the course of his address he said that there were six reasons why the Sabbath should be observed and preserved: (1) Because it was the law of Eden; (2) Because it was the law of the decalogue; (3) Because it was the law of Christ; (4) Because it was the law of the church; (5) Because it was the law of the state; (6) Because it was the law of nature written in our bodies. Rev. Mr. Crafts showed by a chart which was prepared by a German physician that it was injurious to a man's physical condition not to rest one day in seven, and at the close of his address a standing vote was taken, requesting the officers of the Sunday Rest Day association to petition Congressman Babcock, from this state, to do all in his power to enact a law that shall prevent Sunday desecration in the District of Columbia.

A collection was taken up and pledges made to the amount of \$53. A vote of thanks was tendered the citizens of Janesville for their hospitality to those who had taken part, to the Y. M. C. A. and the musicians. After a selection by the Y. M. C. A.

IMPROVEMENT FOLLOWS ELECTION

Edgerton Reporter Comments on the Leaf Trade Condition

MARKET improvement which everyone was hopeful would follow the settlement of financial agitation by the late election is already manifest in the eastern tobacco centers. The noise of the celebration of the victory for a stable money had hardly ceased before business commenced to pick up. One of the first sales in New York was a 1,500 case lot of '95 Wisconsin, the largest transaction of this leaf that has taken place in months. Factories that have long been idle are starting up and many will have to work overtime to fill orders made contingent upon the election of McKinley. The manufacturers who have been allowing their leaf stock to run down must now lay in new stock for their returning trade and leaf houses are already preparing for a busy season. Thus the country packer and the grower with his accumulated stocks of old leaf will be reached in the due course of events and all share alike in the improved tone of the market. The turning point of the low ebb of prices in tobacco has undoubtedly been reached and from this time forward better profits for all who grow or handle the leaf may be looked for.—Edgerton Reporter.

HE BELIEVES IN ADVERTISING.

Dr. Morehouse Writes The Gazette Concerning the "Physician's Code."

EDITOR Gazette:—I was much pleased last evening, with the article in regard to physicians who advertise. The day is fast approaching when every successful physician will be a specialist, and every specialist will advertise. The day has arrived when false ethics of bygone ages should no longer stand in the way of those who would prolong life or relieve human suffering. When one has spent many years in profound study of some certain branch of his profession, and become so proficient therein, that the results of his efforts is almost a certainty, he is not doing justice to suffering humanity if he does not use every effort to make the fact known, so the sick and dying of his race may the sooner profit by what he has learned and the sooner receive benefit from such special treatment.

There are people in the east today who say and who firmly believe they owe their present existence to the careful study and special treatment which the writer has given them. Is there any good reason why these facts should be kept secret from others? He is an enemy to his race who does not care for its welfare. M. Alden Morehouse, Specialist, 53 North Franklin street, Janesville, Wis.

MAY OPEN SCHOOL FOR HORSES.

Montana Equines Likely To Be Educated Here This Winter.

RAINER Joseph Hild, of this city, may open a "public school for horses" soon. Arrangements are now being made for the wholesale shipment of horses into this city for the purpose of giving them "an education" prior to their shipment to the Chicago market. The Green Mountain Stock Branch Company, of Montana, have been in correspondence with Trainer Joseph Hild and contemplate sending over a hundred head of horses to him.

TO BE WEDDED AT GREEN BAY.

Quesnel DeWitte Peake, Formerly of This City The Groom.

JANESVILLE friends of Quesnel DeWitte Peake have received invitations to his wedding, which will occur at Green Bay, on Nov. 20. The bride-to-be is Miss Anna Izora Hanson, daughter of Mrs. H. P. Scott.

Mr. Peake is a son of Rev. and Mrs. T. DeWitte Peake. For some time he was a valued employee of the Gazette Printing company, but left Janesville some time ago, to accept a position on the Green Bay Gazette.

HORSE BUYERS NOT HERE YET

Several Local Shipments Are Delayed Pending Their Arrival.

FOREIGN horse buyers are late this fall in coming to this country. Horse sales in Chicago this month have been postponed to wait the arrival of buyers from the old country. Upon their arrival, shipments will be made by Ha den & Phillips, and Brooks & Davis. A number of horses are now quartered at Will Davis livery, ready for transportation.

F. S. PUETZ GOES OFF ON ANOTHER TEAR

INSANE SCULPTOR LOOSE IN CHICAGO.

Soon After Sheriff Appleby Turned Him Over to His Brother. He Was Found Wandering About in Washington Park, With Bare Feet, Chasing Cyclers.

HARD luck overtook Sculptor Frederick Puetz soon after he arrived in Chicago yesterday in charge of Sheriff Appleby. The sheriff returned home last night, and said that the sculptor was pretty wild on the way to Chicago, although he did not have an opportunity to make much of a disturbance. At Chicago, Puetz was turned over to his brother, Tillman S. Puetz. The latter is a prosperous and influential sculptor, and was very glad to have his brother returned to him. Frederick seemed to become quite rational after his arrival, and told his brother he would like to go to his former boarding house on Ellis avenue. Accordingly he was allowed to go. Leaving his brother, he went to Washington Park, where he was found later walking with bare feet on the cold ground, while he carried his shoes in his hands.

Was After the Cyclers.

Whenever he met a bicyclist he would stand in the path, with a shoe in each hand and attempt to stop the rider.

Park Policeman Lavin finally took the man in charge, and placed him in the Hyde Park Police Station. Chicago papers say:

"Puetz left his home, Twenty-ninth street and Westworth avenue, Oct. 28, to go in search of work. He thought he would succeed in Wisconsin, so he traveled to the Badger state. While there he was caught out in the country during a heavy snow storm, and he was half frozen. He was taken care of by the authorities of Janesville, Wis., and sent home yesterday morning. The unfortunate man met his brother at the depot, and soon left him to go to Sixtieth street and Ellis avenue, where he formerly worked. Afterwards he was found in the park barefooted. He is supposed to be insane. Tillman Puetz, the brother, will take charge of Frederick this morning."

ALL WOMEN'S CLUBS MAY JOIN

Send the Names to Mrs. John Winans, Federation Secretary.

ALL Women's Clubs devoted to social, literary, scientific or artistic culture may at any time prior to November 21, 1896, become members of the Wisconsin State Federation of Women's clubs by simply sending requests for enrollment to its recording secretary, Mrs. John Winans, of this city, such action entitling them to be considered as founders of the federation.

Since representatives of clubs were permitted to sign the constitution, whether instructed to join the Federation or not, it becomes necessary to ask all clubs to indorse the signatures of delegates in order that an accurate list of members of the Federation may be obtained.

In all probability Janesville will be represented in the Federation, although the History club members have decided that they did not have time for the necessary study.

HENRY C. SMITH'S FINE SHOWING

Gubernatorial Candidate Speaks of Janesville's Mass Success at Helena.

ALEX C. Botkin, the republican candidate for governor of Montana, who ran 5,000 votes ahead of the McKinley elector in that state, writes The Gazette as follows:

Helena, Mont., Nov. 10.—[Editor Gazette]:—There is one fact in connection with the recent election here which may possess some interest for your constituency. The result was an overwhelming defeat for the republicans, some of the democratic candidates in the county having a plurality of 1,500. To this the sole exception was your former fellow townsman, Henry C. Smith, who was elected judge of the district court, which corresponds to your circuit court, a position of great responsibility, to which there is attached a salary of \$3,500 per year. There were two judges to be chosen, and the other republican candidate was Hon. Henry M. Blake, formerly chief justice of the supreme court, and a jurist of great learning and the highest character; but Mr. Smith ran ahead of him by 131 votes. His success, under the circumstances, was a notable tribute to his popularity and the standing that he has earned at the bar during his residence of nine years in Helena. ALEX. C. BOTKIN.

"WE KEEP THE QUALITY UP"

The Cape of... Good Hope.

Not the geographical cape of that name that tips the toe of the African continent, but the cape which we have the good hope to sell you, which came to Janesville the other day for that very purpose. Our line of Capes is a very extensive one, comprising, as it does, all the new creations. We show especially good values in Fur Lined Capes, both in wool and silk—very nice for middle aged women.

Received Tuesday, 40 handsome Fur Capes in lengths 30, 33 and 36 inches China Wool Seal, Fine Astrachan, Excellent Electric Seal

The capes that we show in the following furs were selected with great care and are all very good skins:

MARTEN, MINK, ONKEY.

Some long, some short, some with very full sweeps.

THE FACTS ARE this store shows a remarkably large stock of Capes and among our best sellers are the plush capes and wool astrachan capes on which we can make lower figures than any other house in Rock county. How? Because we own them at prices that make it easy for us to sell them at about what other merchants pay for them.

GOLF CAPES are quite new. We show handsome styles. All we want is an opportunity to show our garments, and if you find you can do better there is no harm done.

PLANS FOR TARIFF LEGISLATION

There is considerable talk of the re-submission to congress of the Dingley tariff bill, which passed the house last year, but was blocked in the senate by silver men.

Briefly stated, the bill puts a duty on wool and its manufactures, and on lumber of sixty per cent of the rate imposed by the McKinley act of 1890, and makes a horizontal advance of fifteen per cent on all the other duties of the Wilson law of 1894.

The bill stipulates, however, that the increased duty shall not exceed the rate under the McKinley law, and provides that where the duties under the Wilson act are higher than under its predecessor, they shall not be increased.

Although it is a republican measure, the chief purpose of the bill is revenue and not protection. The estimates as to the increase in revenue which the Dingley bill would bring vary between \$40,000,000 and \$50,000,000.

It is easy to see that this is not such a measure as the republicans would have framed had they been in entire control of the government. The treasury needed more revenue, and the president and Secretary Carlisle appealed to congress for it.

The Dingley bill, which was promptly framed in the house and passed by that body, was the republicans' response to that appeal. Treasury needs are as pressing as they were when the bills passed the house, and the republicans have a right to assume that the president will sign it if it reaches him.

By signing the bill the president will not make any greater surrender of position than the republicans do in passing it. In the past four months revenues have fallen behind expenditures to the extent of \$32,885,000 which is at the rate of over \$8,000,000 a month. Of course the business revival which McKinley's election has brought will reduce this shortage a few months hence, but whatever the deficit may be the Dingley measure, if enacted, would undoubtedly meet it and with scarcely any business disturbance.

If you are going to the inauguration of McKinley and permanent prosperity, you would better not delay your preparations too long. Washington hotels are already being flooded with applications for inauguration accommodations.

Mr. Bryan wasn't too much dazed when he got his wind after his knock-out to put in an immediate bid for the popocratic nomination in 1900. Why, bless your soul, there will be no popocrats left by that time.

The man who doubts the mill-opening ability of president elect McKinley has stopped talking. He couldn't argue against opening mill doors and the whirring of long idle machinery.

Who will be members of the cabinet doesn't specially matter, as long as it is known that they will all be men pledged to carry out the republican policy, in accordance with the will of the people.

Presto! The people say McKinley and lo, there is an immediate restoration of confidence and a revival of business in all branches.

If Maj. McKinley is the Napoleon of American politics his Waterloo is a long ways off, and a Wellington has yet to show up.

Mr. Bryan still has the idea of a campaign of education and a campaign of eloquence a trifle mixed.

A LOBSTER'S LEGS.

Differentiation That Has Hardly Become Constant.

The lobster's legs, all told, are ten in number, says Longman's Magazine. But only eight of these are largely used for walking. The front pair, or big claws, have been specialized, as in the crab and most others of the higher crustaceans, into prehensile organs for catching and crushing the prey. Their use is obvious. Lobsters feed largely off mollusks of various sorts and other hard-shelled marine animals; in order to be able to break or crush the shells of these and so get at the softer flesh within they have acquired such large and very muscular nippers or pinchers. That is not all, however; not only have the two front legs been differentiated and specialized from the eight others in this manner, but also, by a rare exception to the symmetry of the body, the right claw has been specialized from the left, each being intended to perform a distinct function. One is a scissors, the other is a mill; one is a cutter, the other is a cracker. As a rule the right claw is the slenderer and longer; it has toothlike projections or serrated edges on its two nipping faces, and it is rather adapted for biting and severing than for crushing or grinding. The left claw, on the other hand, is usually thicker, heavier and rounder; its muscles are more powerful, and in place of sharp teeth it has blunt tubercles or hammers of different sizes; it acts, in fact, more like a nut cracker than like teeth or a saw; it is a smashing organ. Nevertheless you will find it interesting to observe, by noting the lobsters served to you at table, that this differentiation has hardly as yet become quite constant; for sometimes it is the right claw that displays the hammer-like nut-cracker type, and the left that acts as nipper and biter, while sometimes no difference occurs at all, both claws alike being sharp-toothed or blunt-hammered in the same specimen.

Forestry Commission Meets.

Washington, Nov. 14.—An informal conference between the national forestry commission and Secretary Francis was held at the interior department Friday afternoon. Professor Sargent of Harvard university, chairman of the commission; Professor Arnold Hague of the geological survey and General Abbott, U. S. A. (retired), were the members of the commission present, the others of that body being unable to be here. Assurances were given that some plan would be submitted for forest preservation, which, it was hoped, would prove of immense value to the economic interests of the country, but no definite conclusions or recommendations were offered at this time.

"SHE DRESSES WELL"

BUT HER CLOTHES OFTEN COVER A LIVING DEATH.

Beauty Is the Shrine of Men's Worship, and Women Vie With Each Other to Make Themselves Attractive.

The remark, "She dresses elegantly," is a very common one in this age of wealth and progress.

Women vie with each other in making themselves attractive, for men admire a stylishly dressed woman.

Good clothes add to the charms of the woman in perfect health, but are ill-befitting those who through ignorance or carelessness have suffered the inroads of female diseases to stamp them as physical wrecks. It is unfortunate, but true, that some physicians allow women to suffer needlessly, because man can only work from theory, and at best only patch up, without removing the cause.

Proof is abundant that Lydia E. Pinkham's Vegetable Compound removes the cause, gives strength to the weakened organs, vigorous health to the system, and therefore beauty to the face and form.

Mrs. Pinkham, Lynn, Mass., gladly answers, free of charge all letters.

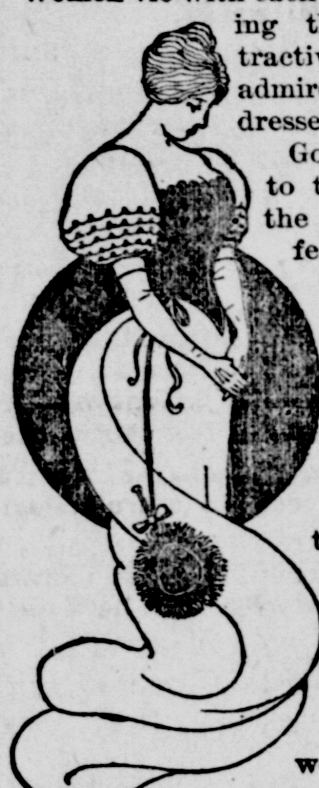

Here is one of the results:

"Three months ago, I wrote you a letter describing my troubles, which were inflammation of the womb and bladder. I had not seen a well day since the birth of my second child, 16 years ago. I had spent hundreds of dollars for doctors and medicines.

"Such pains as I endured. My back ached, my feet and limbs were swollen, and it was almost impossible for me to stand; I could not walk any distance. I received your answer to my letter, and followed closely all your advice, and I have been using Lydia E. Pinkham's Compound for three months. Now I can work all day without pain. I have recommended the Compound to many of my friends, and gladly recommend it to all women in any way afflicted with female troubles."—LYDIA BATTIE, 227 Spring St., Greensburg, Pa.

REV. G. H. TREVOR CAUSED A DEBATE

MILWAUKEE MAN CRITICIZED REV. DR. HODGE.

Said That He Should Not Have Taken a Sunday Train to Preach the Funeral Sermon Over a Brother Ministers' Remains—General Opinion Against the Milwaukeean.

QUITE a sensational chapter—one that was not down on the program—occurred at the Y. M. C. A. building yesterday during the meeting of the Wisconsin Sunday Rest Day Association. Owing to serious illness in his family, Rev. R. T. Roberts of Racine, was unable to be present and Dr. Hodge of this city, was asked to speak on the subject, "Shall Christians Engage In Pleasure Riding On the Lord's Day?" Dr. Hodge spoke briefly, saying that he thought this could be answered in the same manner as the others unless special stress was laid on the fact that there was even less apparent necessity than in the other cases. He could see where there might be instances where it was necessary to travel on a Sunday train, but such instances would come under works of mercy. He did not believe in visiting unless in cases of sickness, he said.

Talked 30 Minutes
In the course of his remarks, Dr. Hodge said that he himself had once ridden on a Sunday train. He had received a telegram announcing the death of another minister, and asking him to come and conduct the funeral service. The only way he could reach the city was to take a Sunday train, so he did so.

Rev. G. W. Trevor, of Milwaukee, the former pastor of the Janesville church, jumped to his feet and declared that Dr. Hodge should not have traveled on Sunday, in any event. Others protested and said that Dr. Hodge did right, but Rev. Mr. Trevor refused to see it that light. The discussion lasted for thirty minutes, and ended without a decision as to the merits of the case.

The general opinion seemed to be that Rev. Mr. Trevor was on the wrong side of the discussion, as no man could stand higher among the people than Rev. Dr. Hodge.

HAD A LIVELY ROW AND BLOOD FLOWED

POLICE CALLED TO THE REILLY HOME.

Wife Had a Gash in Her Head That Required Eight Stitches in Her Scalp and There Was Blood on the Poker—No Arrests Have Yet Been Made.

"HE is killing mama!" cried one of T. R. Reilly's children, as she ran into Mr. Murphy's home this morning. Half an hour later Dr. J. F. Pember had taken eight stitches in Mrs. Reilly's head, and she had told the police that she did not want to prosecute her husband.

Reilly is a baker and works nights for the Colvin Baking Co. This morning at 7 o'clock, after completing his night's work, he started for home. When he arrived, the neighbors say, his wife asked him for a dollar to pay for a load of vegetables which she had ordered.

Words were exchanged and a store poker figured in the transaction. Mrs. Reilly fell to the floor with a deep gash in her head from which blood freely flowed. Their two little children then aroused the neighbors who soon put in an appearance and put a stop to the fracas. A boy was sent to find the police, and Officer Hogan went to the house, but no arrests are likely to be made.

M'KEE GETS FREE BY PAYING A FEE

THE WATCH THIEF NOW AT LIBERTY.

Relatives Sent the Money and as the Sheriff Was Out of Town the Second Warrant Charging Him With Stealing F. C. Burpee's Wheel Could Not Be Served.

F RANK McKee, the man who was sent to jail for thirty days for stealing Ed. Fallon's gold watch some days ago, was set free last night, and, in all probability, he does not yet "know his luck."

McKee went to jail because he could not pay his fine. As it will be remembered, he came here from Indiana, to attend the Valentine School of Telegraphy. When he was arrested considerable stolen property was found in his possession. Ed. Fallon's \$65 gold watch was among the articles, as was also Fred C. Burpee's Crescent bicycle that had been stolen some time before. Then, a fellow boarder's overcoat was also in McKee's kit, as was another man's silk umbrella. Complaint was made, charging McKee with stealing the watch and Judge Phelps convicted him. The fine—with the 30 day sentence attachment—was unpaid, and McKee went to his cell.

In the meantime a warrant had been issued for McKee, on the charge of stealing the bicycle, and Sheriff Appleby was to arrest McKee on that charge as soon as he finished the sentence for stealing the watch. Letters had been sent to McKee's relatives telling them of his arrest, and Richard Valentine was sent the money to pay a fine. Yesterday Mr. Valentine went to the jail, and paid over the money. Sheriff Appleby was in Chicago with Fred Puetz, and as the fine was paid, all that Turnkey Brown could do, was to turn McKee loose. This was done, and McKee was soon on his way to the Hoosier state. The sheriff will have to go all the way to Indiana, now, to serve the warrant in the bicycle case.

Chief Acheson jailed George Tring with last night, for indulging too freely in the flowing bowl.

"I believe in dress. I don't care whether it's a case of man or merchandise. I believe that the well-dressed man, other things equal, will outstrip the slovenly-dressed individual. I believe a well-dressed article will out-sell a slovenly-dressed one, even when real merit is slightly in favor of the latter." — Charles Austin Bates, in Printers Ink.

Are You A Dyspeptic?

Woman's World.

The Impulsive Woman.

If a thoughtful woman were asked, What is the greatest curse of your sex? she might well answer "Impulse." It is responsible for almost all the mistakes made by the good hearted among us. May it not be safely said that a few minutes' thought before speech or action would prevent most fatal blunders? Many of us are in positive bondage to our birdlike quickness to feel, to show our feeling, to retort or to respond. If we are hurt, we must immediately "give ourselves away," as the phrase runs, if not by bitter speech, at least by look and manner. Yet reflection frequently brings the keenest regret for the lost dignity, the betrayed secret. Many a one has wrecked her own happiness for the want of the patient stoicism which would have led her to stand aside for awhile watching events until they brought with them her opportunity.

Even when we are happy, it is not always well to let the bright stream bear us away rudderless. The impulsive manifestation of affection, the hasty proposal of marriage, the hastier acceptance, have they never proved the beginnings of misery, or has a rash word never sundered true lovers, true friends? If these things are true, it is likewise true that the fault in the commencement has been that of feminine impulsiveness. The defect is a generous one, and therefore commoner with us than it is with men, so that it handicaps us unfairly in the struggle of life. And truly it is a weary task to be always "with a host of petty maxims preaching down" one's heart. But we must do it. Either we must rule feeling or feeling will rule us. It is a good servant, but a bad master. Our loving women's hearts are like the fire of the domestic hearth—the light of the home where duty controlled, warming the whole house. But if the fire be not kept in its subordinate place, what a conflagration ensues!—Philadelphia Times.

Woman in Pagan Times.

I had heard so many times, both in and out of the pulpit, says a Forum writer, that woman owed to Christianity her social elevation and the amelioration of her lot that I had come to accept it as a truism. At all events, it had never occurred to me to question the postulate until one day I read in "The Germania" of Tacitus that among the ancient Teutons a kind of sanctity seemed to pertain to women. Truly remarkable, considering the time when it was written, is the statement that the German women were not permitted to regard themselves as standing outside the world belonging to the men, nor were they unconcerned in their warlike pursuits. If the above statement of Tacitus is to be trusted, I am inclined to believe that the Germans, amid all the rudeness of a pastoral and militant life, possessed elements of a higher civilization than the fastidious and overrefined Romans. The chief evidence of this superiority is, I think, to be found in their attitude toward women. Among the ancient Germans apparently men conceded all that women demanded. There is to me something very noble in the comradeship of husband and wife which appears to have existed among these rude and hardy warriors—a comradeship half resembling that of boys and girl before the consciousness of sex has markedly differentiated them. Not even from the tribal council were women excluded. Tacitus expressly states that they were attentively listened to and that their advice was never left unheeded.

Taking Off Weight.

Spasmodic efforts to reduce one's weight are of little use. You must take a brisk walk—not a saunter, mind—every day, increasing the distance gradually if you are easily tired at first. Sleep on a mattress and take care that your bedroom is well ventilated. Get up early enough to take a turn in the fresh air before breakfast if you have no active household duty to perform. Before sitting down to breakfast drink half a glass of hot water with lemon juice in it.

Take a bath every morning, hot or cold, whichever suits you best, and then rub the body vigorously with fairly rough towels until the skin is in a healthy glow. It is of the utmost importance to keep the skin in good condition; otherwise the pores become clogged, and the more or less perceptible perspiration which is always going on is impeded.

Turkish baths, if you can get them, are the greatest possible help, but remember not to expose yourself to cold immediately afterward without sufficient protective clothing. Then about corsets. Whatever you do, don't attempt to reduce your apparent size by tight lacing. Let your corsets be a support to the figure; no more. An unduly small waist in proportion to the rest of the body is a deformity and only makes the corpulence which it is meant to disguise more noticeable.—Pittsburg Dispatch.

Handsome Table Mats.

Some handsome new mats to place under the jardinières kept on polished tables are squares of white china silk with a border of plush about a finger wide. These mats are made over a stiff foundation of crinoline or canvas, covered with a layer of cotton and lined at the back with silk of a contrasting color.

For instance, one of those "seen," which is in a room where there is much green of various shades, has a border of olive plush and is covered at the back with olive china silk. The center of white china silk is covered with an all over pattern of flowers of about the size of a 25 cent piece. These flowers are outlined in coarse green embroidery silk. On the mat was a green jardinière, holding a palm. The plant was placed on a Turkish coffee table of mahogany. These low tables are much used in all kinds of wood for holding a single plant. In a room with a different coloring the mat could be made of white and dark or old blue or of raspberry color and white. A spread made for a large mahogany dining table is a large square of this kind, so that when laid on the table it leaves the corners bare. It has a border of apple green satin.—New York Post.

VARIOUS NOTES.

Felt Hats of Every Color—Velvet Toques.

The fancy for felt hats is widespread. They are of all colors, dark, light, brilliant and subdued. The newest and most startling shades in dress goods are reproduced in felt in a way that would have astonished observers 20 years ago, when felt hats were always dark or neutral tinted. Besides the usual plain felts there are the newer felt braids, sometimes intermixed with silk, mohair or chenille. Red, green, blue, mauve and violet are among the striking colors employed, these gay articles of headgear being, as a rule, toned down by black trimmings, ostrich plumes, coq feathers and quills.

Green velvet toques are among the millinery novelties of the moment. They are adorned with black feathers and white trimmings. Black and violet velvet toques are likewise much seen, but green ones are preferred at present.

Gray, beige and light brown felts are fashionable as well as more brightly tinted ones. Indeed, this is a season in which any and all colors may be worn and are worn without let or hindrance of any kind except such as is imposed by the taste and complexion of the wearer.

Light and white gloves are still in vogue for day as well as evening wear. This is

JUVENILE COSTUMES.

an expensive fashion, but fortunately not a compulsory one, for colored gloves are not considered out of date, and many women wear them for the street, where they really seem more suitable than white ones, unless the latter are of wash leather. Both suede and glove kid are seen, the latter having returned to fashionable favor after several years' retirement. The mousseline glove is also no longer alone in public esteem, for gloves entirely buttoned are again worn—at least in the ordinary lengths.

The sketch shows two juvenile costumes. The first, for a girl of 14 years, is of golden brown wool goods, with velvet spots of the same color. The skirt is plain. The crossed bodice opens over a plastron of golden brown velvet, the edge of the bodice and the armholes being outlined with galloon. The collar, belt and cuffs are of velvet. The second figure wears a long Mother Hubbard coat of Russian green cloth. It forms hollow plaits, and is bordered with black cord embroidery and a band of beaver fur. The collar of green figured velvet is edged with fur and adorned with two cloth straps fastened by gold buttons.

JUDIC CHOLLET.

Needles in the Body.

Things in the tissues of the body, such as needles, etc., often make wonderful journeys through the body, and come out years afterward in quite a different region from that at which they entered. These bodies should always be extracted, because there is a danger of their invading some important organ (e.g., the heart) as they work their way through the tissues by the movements of the muscles. The "new photograph" has been of great service in showing physicians the precise localities of such bodies, and of guiding them to their easy extraction. The doctor should always be consulted where a needle or other body disappears in the tissues, and the earlier the doctor sees the case the less pain will be experienced in its removal.—Pittsburg Dispatch.

Historic Bell.

The historic bell in the tower of St. John's Episcopal church, Portsmouth, N. H., is to be taken down to be recast, having recently been cracked. The bell was captured at Louisburg by the expedition under Sir William Pepperell, and was presented to the church by Sir William. In 1806 it was recast by Paul Revere & Sons of Boston, and has hung in the church tower since that time.

TRUE WHEN WRITTEN.

But Time Brought Changes at the Summer Resort.

I was attracted to a place in Virginia, near the Atlantic ocean, where the combined advantages of surf bathing and an absence of mosquitoes was advertised.

The surf bathing was there, but there were never more or larger mosquitoes than infested the place. The landlord was a leader in the church and made a great point of his conscientiousness, so I questioned him about the insects: "Mosquitoes worse this year than usual?" I asked.

"Reckon not. They generally bite purty sharp this season of the year." "Are there always this many here?" "Erbout—some gits killed, but don't seem ter make no difference."

"Didn't you advertise that the place was free from mosquitoes?"

"Sartin. I allus do, an' ef ther was a single skeeter here I'd say so. I nevel lied yit, an' I never shall. No, sir; when I say a thing it's jest that way. I would be willin' to give you a hundred dollars fer every skeeter you could hav' found hyar when I writ that thar 'ad' las' January. Ef you stay till frost you'll fin' that thar ain't one lef'. In July an' August it stan's to reason thar mus' be skeeters."—Washington Star.

Where Geodes Are Plentiful.

"I notice a few inferior geodes in the National museum," said A. T. Kreibel of Warsaw, Ill. "They were so common at Warsaw a few years ago that they became known as Warsaw diamonds. Most of them have been picked up and those remaining are small and inferior, but many much finer specimens could be found in Warsaw now than any of those in the museums. Some of these geodes were several feet in diameter and when broken open the crystals looked like a thousand diamonds. Some of them were filled with water and these were exceptionally brilliant. Walka were bordered with them and piles of them placed in yards for ornaments. There is a glen about five miles from Warsaw where they are still to be found by wagon loads."

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness and pain harass her and life seems hardly worth the living. Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the distinctly feminine, the other for her general system. Together they supply a scientific and successful course of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and neck with good solid flesh and brings back the gladness of girlhood. With these remedies there is no need of detestable "purgations."

STATE OF WISCONSIN—CIRCUIT COURT.

FOR ROCK COUNTY. William T. Van Kirk, plaintiff, vs. John W. Richardson, Alice L. Richardson his wife, Charles E. Conrad as assignee of John W. Richardson, Rock County National Bank, George E. Are Your Feet Cold?

I thought so. : Wet Too? To be sure.

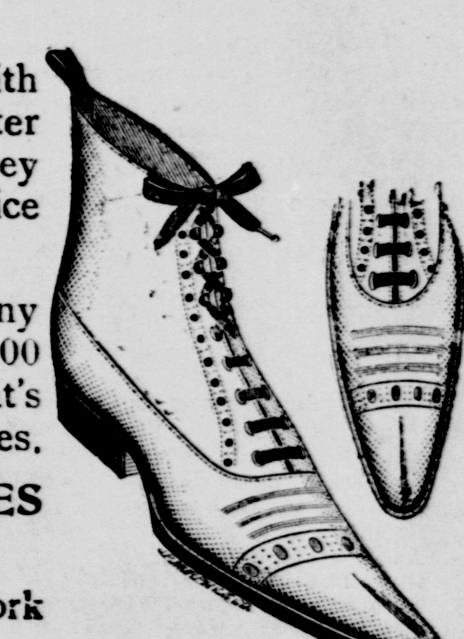

Why shouldn't they be, around days like these with such substance under foot to walk on, and not the proper footwear. Most men think it too much trouble to put on rubbers, therefore Box Calf and Enamel Shoes with heavy soles are designed for their wear.

OUR BULL DOG BOX CALF with heavy double soles are shoes for winter wear that keep the feet right. They sell the world over at \$5.00; our price is \$4.75.

ENAMEL SHOES we have many styles of, and where we received \$7.00 a pair we now ask but \$6.00. That's the cash system's way of cutting prices.

GOV. UPHAM'S PROCLAMATION OUT

He Follows the Time Honored Custom of the Country.

Governor Upham today issued his Thanksgiving proclamation. It is as follows:

Following an honored custom, and in conformity with the proclamation of the president of the United States, I, William H. Upham, governor of the state of Wisconsin, do hereby set apart Thursday, the 26th day of November, 1896, as a day of public Thanksgiving.

Notwithstanding the general industrial depression which has prevailed in the country, we have been favored with unprecedented crops and a marked freedom from calamities, and the year is closing with the promise of a high degree of prosperity in all departments of industry.

It is fitting, therefore, that a day be set apart in which all the people of this state may join either in their homes or in public places of worship, to render thanks and humble acknowledgment to the Providence which has vouchsafed to us these many blessings.
